## Why Us...

With our selection of eco-friendly mobile electronics, we don't just give you what your phone needs; we protect the environments while doing so. At Avane, we are dedicated to supplying eco-friendly electronics/mobile accessories items by using wheat straw fiber, bamboo fiber, PLA, PBAT mix with ABS or PP in order to reduce plastic use.

All our products are reusable, recyclable or biodegradable and with feature icons to identify the eco-friendly attributes of each product. We strive to deliver the highest quality which is why all our electronic accessories comply with the EU/US safety, health and environmental standards including CE, ROHS/FCC and FSC.
